

## Geometry Vocabulary Toolkit

### Unit 3

Each term must include the Terminology, a Definition/Explanation, and a Drawing/Example. Vocabulary will be collected and graded at the conclusion of each unit. YOU are responsible for completing the toolkit. You may use your class notes, your textbook, or the Internet as a reference.

#### Unit 3: Part 1

Term (with symbol)	Define/Explain	Drawing/Example
- Polygon		
Concave		
Convex		
Diagonal		
Regular Polygon		
Quadrilateral		

Pentagon		
Hexagon		
Heptagon		
Octagon		
Nonagon		
Decagon		
Parallelogram		
Opposite Sides & Angles		

Term (with symbol)	Define/Explain	Drawing/Example
Consecutive Sides & Angles		
Square		
Rectangle		
Trapezoid		
Isosceles Trapezoid		
Median of a Trapezoid		
Base Angles of a Trapezoid		
Rhombus
